Education

Ph.D. in Geosciences *University of Texas at Dallas, USA* 08/2016 - 10/2022

- Supervisor: Prof. Hejun Zhu
- Research direction: Seismic structures beneath Australia using full-waveform inversion

B.S. in Geophysics *Peking University* 09/2012 - 07/2016

- Supervisor: Prof. Yanbin wang
- Research topics: 2D Finite difference modeling incorporating surface topography

Work Experience

Geophysicist Intern at Conocophillips 05/2018 - 08/2018

- Implemented a time-domain visco-acoustic modeling scheme in TTI media using rational fractions approximation.
- Further improved the finite difference stencils to reduce numerical dispersion in wave simulation.
- Participated in production Q Kirchhoff migration workflow.

Research Experience

- Pure quasi-P wave modeling in transversely isotropic (TI) media.
- Seismic structures beneath Australia using full waveform inversion.
- Moment tensor inversion of intermediate depth deep earthquakes at the Tonga subduction zone.
- Time-lapse velocity change at NE New Zealand measured from ambient noise auto-correlation.

Honors

Anton Hales Fellowship 2021

Leadership

President of the SEG student chapter at UT Dallas 01/2018 - 12/2018
Vice president of the SEG student chapter at UT Dallas 01/2017 - 12/2017

Invited Presentations

"Moment tensor inversion for deep earthquakes at the Tonga-Kermadec subduction zone using 3-D Green's functions", Center for Tectonics and Tomography, University of Houston, USA, Mar. 2021

"Moment tensor inversion for deep earthquakes at the Tonga-Kermadec subduction zone using 3-D Green's functions", SCEC 2020 Annual Meeting, USA, Sept. 2020

"Seismic anisotropy beneath the Tonga Subduction Zone based on adjoint tomography", Seismology Student Workshop at Lamont-Doherty Earth Observatory, USA, Mar. 2020

"Seismic anisotropy beneath the Tonga Subduction Zone using full-waveform inversion", Center for Tectonics and Tomography, University of Houston, USA, Nov. 2019

Community Involvement

Reviewer for *JAG (Journal of Applied Geophysics)*, *Geophysics*, *GRL*, *SRL*, *JGR: Solid Earth*, & *GJI*

SEG student member 2016 - present

AGU student member 2018 - present
